

MPPT NEWSLETTER MAY 2026

OUR BIGGEST ANNOUCEMENT YET

It comes with great excitement that MPPT is announcing that **we are opening a new clinic space!** As we continue to grow, we knew it was time to expand our services to grow for the better and serve our kids and their families, even those a little further away.

As we are still in the building phase, there are many steps we still need to complete before our opening. We will only be showing some sneak peaks along the way, so stay tuned as we slowly give more information as we get closer to opening day! The new clinic's address is:

**3040 North Hwy 17 Suite B
Mt. Pleasant, SC 29466**

While this is very exciting news, we know this can raise some concerns and questions. Our team is working hard to cater to all of our families' needs and we will be with you every step of the way. We are very excited to take MPPT's biggest step forward!

OUR BIGGEST ANNOUNCEMENT YET

A FEW WORDS FROM THE OWNERS

As we have watched our community grow, we are eager for this opportunity to extend our play-based, child centered care, closer to all of you! Our hope for this new location is to further our deep commitment to making exceptional pediatric therapy accessible throughout the Charleston area.

What does this mean for you? NOTHING, yet!

There is still construction going on in the space in order for us to uplift it to what best reflects MPPT.

Will I be able to see this new clinic? YES...SOON! We plan to do a “soft opening” with light refreshments so that you and your family can come check out all the hard work we’ve been doing BEFORE therapy gets going full-time in this space.

Is my therapist leaving? NO! Our multi-disciplinary team will be spreading out and sharing time between both locations (Johnnie Dodds and North Hwy 17). Same team, just more room to create a calmer environment in the parking lot, the lobby and during therapy sessions.

At which clinic will my child’s therapy appointment be located? WORK-IN-PROGRESS! There is A LOT of behind the scenes magic currently occurring with many more details to come. We are working to streamline schedules with the school year ending to ensure that there are not multiple changes and transitions happening for our kiddos.

As we continue to have more concrete answers, we will relay additional information to you. Please feel free to call the office (843-654-9694), text the MPPT text line (843-654-4517) or pop in to see us any time!

NEW EQUIPMENT- BUNGEE HARNESS

Our new bungee harness system is a versatile and engaging therapy tool designed to support friends during their physical therapy sessions to promote **strength, balance, coordination, and confidence** in movement. Each harness easily attaches to secure wall clips, allowing our therapists to customize activities based on each child's individual developmental goals.

KEY BENEFITS

- Adjustable resistance levels for **graded support and challenge**
- Multiple cord lengths provide **different levels of stretchiness and mobility**
- Secure clip attachments for **quick setup and safe transitions**
- Encourages **active movement** in a fun, motivating way
- Supports **gait training, body awareness, and postural control**

By offering **scalable resistance and flexibility**, this system grows with our friend's progress—helping our therapists continuously adapt their sessions as our friends grow stronger.

Our bungee harness setup transforms therapy into an interactive experience while providing the therapeutic support children need to thrive. So far, our friends are loving that they can **bounce around freely while also feeling safe** as the bungees help them stay upright. We are excited to see what else we can do with this awesome piece of equipment!

MPPT Kids Say the Darndest Things

Kristen: "He's sprouting. Do you know what that means?"

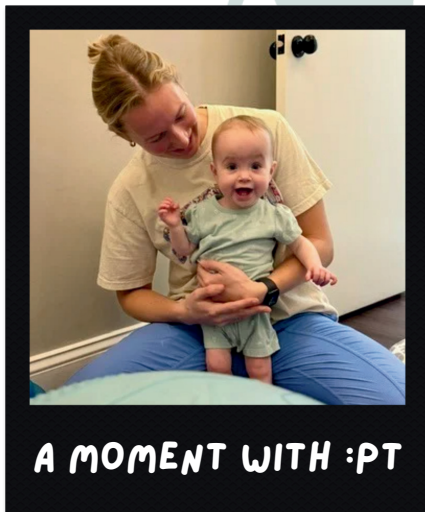

Kofi: "that means he's turning into a young man"

April is National OT Month!

We love our OTs!

SCHOOL IS ALMOST OUT FOR SUMMER!
PLEASE LET YOUR THERAPIST KNOW OF ANY CHANGES IN YOUR SUMMER SCHEDULE SO WE CAN COORDINATE EFFECTIVELY.
-THANKS!
